

BMD SSC Status

- **Core Model pages developed and on-line**
- **New look & feel created for the BMD SSC web site**
- **Version 1 of Catalog database schema has been finalized**
- **New Modeling & Simulation Advisory Panel (MSAP) page has been added to our NMD Programs page with documents available for download**
- **Acquired server to host BMD SSC web on a separate server from JNTF web**

Data Center JNTF MSRR

The BMD SSC serves as a Center-Of-Excellence and **web-based** source of modeling and simulation expertise, services, and information. The BMD SSC places BMD information (M&S, Exercises, Flight and Ground Test, Wargames) on the BMD analyst's desktop. With the proper registration and approvals, this service may include access to the source code of the models and simulators.

BMDO MSRR

**Ballistic Missile Defense Organization
Modeling & Simulation Resource Repository**

The BMDO MSRR is part of the DoD-wide **Modeling & Simulation Resource Repository (MSRR)**. The MSRR promotes interoperability, re-use, and commonality through information sharing and communication throughout the Modeling & Simulation (M&S) community. A large number of organizations and a significant degree of effort are involved throughout BMDO in leveraging M&S technologies. This site is intended as a guide and directory to information on these activities.

The goal is to provide a single source for information about and access to DoD models, simulations, data sources, algorithms, and other M&S resources in order to facilitate re-use and avoid duplication. BMDO organizations that have existing models, simulations, data sources, algorithms, and other M&S resources are encouraged to contact the Webmaster at the Ballistic Missile Defense Simulation Support Center (BMDSSC) at the Joint National Test Facility (JNTF) to have them included. Maintenance of items within the BMDO MSRR is the responsibility of the information provider.

Note: We will be **Changing our URL** to: bmdssc.jntf.osd.mil in the near future. Send mail to [BMD SSC](#) the **BMD SSC Webmaster** with questions or problems.
